

2010 4th Grazing Livestock Nutrition Conference Organized by: W 1012 (Formerly WERA – 110)

Estes Park Convention Center
Estes Park, Colorado
July 9-10, 2010

Instructions for Abstract Submission

(Oral Presentations will be given by the invited speakers.
All other submitted abstracts will be presented as posters)

DUE DATE: MUST BE SUBMITTED BY 11:59 p.m. CST MARCH 19, 2010

General Information: Posters should consist of original, completed research that has not yet been published in a research journal. Members are encouraged to present research reports in poster sessions to facilitate discussion of research results among members, and to diversify the meeting format.

Authors need to be aware of patent considerations before submitting abstracts for publication.

Abstract Submission Guidelines: All abstracts **must be** submitted electronically via the World Wide Web, at

<http://www.asas.org/grazingconf/>

Instructions for submitting the abstract are available on the Web site. You **will be required to register with the system. This personalized account allows for the management and storage of multiple abstracts submitted for this meeting.** When you submit your abstract, you will be given a **tracking number** and **password**. Make a note of these, they will allow you to revise your submitted abstract at any time before the deadline. After the deadline it will not be possible to submit or change abstracts.

Space limitations allow a maximum of 4,600 keystrokes (including characters, spaces, and punctuation). Begin count at the title and end count with the last key word or end of a table if one is included. Abstracts that are too long will be rejected automatically by the system. Coding for special characters is not included in the total keystroke count. If you must use boldface, italic or sub-/superscript type anywhere in the abstract, consult the Text Attributes Coding information below. This special coding is not counted in the 4,600 allowed keystrokes. Special characters such as Greek letters and math symbols are available on the electronic submission form itself.

Abstract Requirements: The author submitting the abstract is responsible for its content and quality of preparation.

The Editorial Committee of the 4th Grazing Livestock Nutrition Conference has the responsibility to accept or reject abstracts. Criteria for acceptance or rejection will include those outlined in these instructions and "Quality Standards for Abstracts" (see web site <http://www.asas.org/westernsection/2010.asp>), as well as originality, clarity, and merit.

The Organizing and Editorial Committees have the authority to restrict the number of abstracts accepted. If withdrawal of an abstract becomes necessary, notify Dr. Bret Hess, Chair of the Editorial Committee, Department of Animal Science, University of Wyoming, Laramie, WY 82071, Phone: (307) 766-5173, FAX: (307) 766-2355, E-mail: brethess@uwyo.edu, immediately.

Author Notification: Receipt of the electronic submission of the abstract will be acknowledged by e-mail. Corresponding authors of abstracts will be sent an email stating the abstract has been accepted or rejected. As soon as the program is finalized with days, times and locations it will be on the ASAS grazing conference web site. Hard copies of the program will not be mailed.

Presentation Information: Posters will be set up on the evening of July 8, 2010. Presenters will be required to attend their poster from 5:30 to 7:00 pm on July 9, 2010. Posters must be removed by 1:00 pm on July 10, 2010.

If Your Abstract Includes a Table: The electronic submission form allows submission of tables. The keystroke limit will be 3600 for the abstract and 1000 for the table. The printed abstract width allows for 70 keystrokes per line, including spaces; the system also limits tables to a maximum of 10 columns and 15 rows; keep this in mind when formatting the table. Tables that are too wide are not printable. You must also include coding for text attributes in the table. This includes the italicization, superscripting, and subscripting of numbers and letters in the table and the footnotes

Text Attributes Coding Information

When special text attributes, such as superscripts or subscripts, is needed, indicate these using the following coding:

To make a character superscript, type `^{3}^` (superscript ³ in this example)

To make a character subscript, type `_{2}_` (subscript ₂ in this example)

To make a character bold, format it like this; `word` the result will be **word**.

To italicize a character, format it like this; `<i>word</i>` the result will be *word*.

To underline a character, format it like this; `<u>word</u>` the result will be word.

Do not insert any extra spaces between the coding string and the adjacent characters in a

word or expression. Do not use your word processor's attribute functions to create bold, italics, or super-/subscripts. You must use the coding given above. Special math, Greek, and accented characters are available from the grid on the submission form itself; just click on the character you wish to insert. If your abstract includes a table, you must also include coding for text attributes in the table. This includes the superscripting and subscripting of numbers and letters in the table and the footnotes.

Please Note: Characters you choose from the boxes always appear in the character coding box. Simply highlight the code for the character then cut and paste it into the correct location in the abstract text.

Questions: After reading these instructions, if you have any questions regarding submission, contact FASS Headquarters Office (abstract@assochq.org).
