

AMERICAN SOCIETY OF ANIMAL SCIENCE

Corbin Award in Companion Animal Biology

Name of Award: The American Society of Animal Science Corbin Award in Animal Biology.

Nature of Award: A plaque.

Purpose: To recognize and stimulate research and/or teaching excellence in companion animal biology.

Eligibility for Nomination: The nominee shall have made a meritorious scientific contribution by way of teaching, research or other service to companion animal nutrition or some other aspect of companion animal biology over a period of five or more years. Particular attention will be paid to the long-term effects of the contributions.

Dossier must include the following materials:

- CV/Biography of the nominee.
- Summary statement (not to exceed 8000 characters and spaces) describing the importance of the nominee's contributions to the livestock industry.
- List of most significant publications, courses taught, development plans, citations for services rendered, or other pertinent credentials for the previous 10-year period (not to exceed 8000 characters and spaces).
- Citation for printing and reading (not to exceed 1000 characters and spaces).
- Photo of nominee (photo will only be used in the awards program and will not be visible to the award review committee).
