

AMERICAN SOCIETY OF ANIMAL SCIENCE

Rockefeller Prentice Award in Animal Breeding and Genetics

Name of Award: The American Society of Animal Science Rockefeller Prentice Memorial Award in Animal Breeding and Genetics.

Nature of Award: A specified monetary award and a plaque.

Purpose: To stimulate research excellence in breeding and genetics.

Eligibility for Nomination:

- Research is based on basic or applied research in breeding and genetics with any class of large or small animals.
- All original research published by the nominee is eligible for consideration in selection of the awardees.
- The research upon which the nomination is based must be different from that submitted for the ADSA Animal Breeding Award if the nominee is a previous winner or a candidate for the ADSA Animal Breeding Award.

Dossier must include the following materials:

- CV/Biography of the nominee.
- Summary statement (not to exceed 8000 characters and spaces) describing the importance of the nominee's contributions to the livestock industry.
- List of publications concerning original research of the nominee.
- Citation for printing and reading (not to exceed 1000 characters and spaces).
- Photo of nominee (photo will only be used in the awards program and will not be visible to the award review committee).
