

Stormshak Innovations in Reproductive Biology Award

Name of Award: Stormshak Innovations in Reproductive Biology Award

Nature of Award: A plaque and a monetary award.

Purpose: To recognize innovative new methods or discoveries in reproductive biology of livestock.

Eligibility for Nomination:

- Nominee must be a current ASAS member and have maintained continuous membership for at least five consecutive years immediately preceding the nomination.
- Nominee shall have either:
 - Through applied research developed new method(s) that lead to improvement of reproductive performance of male or female livestock or
 - Through basic research identified new target tissue responses to hormones or other biologics that underscore a particular stage of male or female reproductive performance.
- Nominee must be a U.S. citizen.
- Previous winners are not eligible.

Dossier must contain the following materials:

- CV/biography of the nominee
- A separate list of any selected research publications in peer-reviewed journals (not to exceed 10) with brief narratives of their importance/impact on the field of livestock reproduction.
- Summary statement (not to exceed 8000 characters and spaces) describing the importance of the nominee's contribution to the reproductive performance of livestock.
- Citation for printing and reading (not to exceed 1000 characters and spaces).
- Photo of nominee (photo will only be used in the awards program and will not be visible to the award review committee).
