Racing to Indy

Are you ready for a great meeting? Many folks have been working hard to put together a great educational experience at the 1999 ASAS Meeting in Indianapolis.

Wonderful shopping, attractions and fine food are all within easy reach of downtown Indianapolis. You can take in a zoo, a minor league baseball game, and of course - the Indianapolis Motor Speedway! That is why we are "Racing To Indy"! In addition, several tours will allow you to experience the great state of Indiana.

Indiana has a rich agricultural heritage. Despite ranking 38th in size in the nation and having just 2 percent of the country’s population, Indiana earned top 10 rankings in nearly 20 agricultural production areas in 1998! Indiana produces approximately 8 percent of the nation’s soybeans or corn. You are probably aware that Indiana ranks in the top ten in production of pork, eggs, turkeys, chickens and layers. However, did you know that Indiana produces the most ducks in the US, with 1.2 million in inventory?

Back to the folks that have been toiling to make this meeting very special. Your program chairs have packaged over 600 abstracts into an exciting program. In fact, thanks to the hard work of our program chairs and ASAS and FASS staff, we are pleased to provide the entire program to you along with preregistration material. We hope this will enhance your planning.

The 1999 meeting is a mix of tried and true and new activities. Be sure to attend our opening session that will feature Dr. Eric Bradford speaking on “Animal Agriculture and Global Food Supply.” Our multiple symposia, lead off by the always-popular reproductive symposium, and our poster and oral sessions are the heart and soul of our program. We have also added a new twist - Technology Forum. Thanks to generous sponsors, we are bringing you some of the very latest information on eco-nutrition, food safety, meat quality, lean growth modeling and reproductive management. We are hoping to attract many folks that have not formerly attended ASAS meetings. To you, we say Welcome! To all our sponsors, we say Thank You! Members, please take time to thank our sponsors as you meet them during the meeting. In conclusion, folks at Purdue University, University of Illinois, Elanco Animal Health, United Feeds and USDA-ARS Livestock Behavior Unit are anxiously awaiting your arrival. Please be on the lookout for folks in black or orange shirts to get your questions answered! What a pit crew! See you in Indy!

Terry Klopfenstein
ASAS President

POSTER SESSIONS

Poster sessions will be all day Wednesday, Thursday, and Friday until noon. Posters will be staffed by a presenter at times designated in the scientific program, but will be available for viewing from 8:00 a.m. to 5:00 p.m. on the day on which the session is scheduled. The Tech Forum posters will be up from Wednesday 1:00 p.m. to Thursday 11:00 a.m. and will be staffed by a presenter from 4:30 p.m. - 6:00 p.m. on Wednesday. The poster board surface is 48” high and 96” wide. Poster presenters must supply their finished poster and the push pins to display their poster. The Exhibit Hall will open at 7:00 a.m. to presenters on day of scheduled poster presentation.
REGISTRATION INFORMATION

Registration Materials

All registration materials are included in this mailing. Registration information and forms can be found on page 32A/B and are also available by visiting the ASAS Web site at http://www.asas.org/. Each member should complete a General Registration Form. If you have a spouse/guest or child participating in any of the activities of the meeting, they should be included on the member’s General Registration Form. If events are ticketed all individuals including children must purchase a ticket (please include all names).

Registration Deadline

Register early to help us plan better. Those registrations that are postmarked before July 1 will be at a lower rate than those sent July 1 or later. No telephone registrations will be accepted. Faxed registrations can be accepted only if payment is made by credit card (FAX 217/398-4119). We accept Visa, MasterCard, and American Express.

Student Rate ’99:
Free Student Registration!

Again this year, students who are members of ASAS receive free registration. Student Nonmembers pay a nominal registration fee of $20 which includes membership for 1999. A membership form on page 167 must be returned with the registration form. (Please note students are responsible for fees associated with ticketed events.)

Membership Information

You do not have to be a member of ASAS to attend the meeting; however, the differential between the member and non-member registration fee makes it very attractive to join at the time of registration. A membership application can be found on page 167 of this booklet. To take advantage of this offer you must return a membership application with the registration form.

Payment

Checks for Registration must be in US dollars drawn on US banks made payable to ASAS Annual Meeting. Payment by credit card (in US dollars) is available: complete the “Credit Card” section at the end of the General Registration Form.

Receipts

If you register before July 9 we will mail you a registration receipt, meeting badge and appropriate tickets. Verify the receipt and contact the Business Office if you have any questions. If registration is received after July 9, you may pickup your receipt, meeting badge and appropriate tickets in the ASAS Registration Area at the Indianapolis Convention Center (see Convention Center Map on page 157/158).
Program Book

The Meeting Program, included in this booklet, begins on page 36.

Abstract Book

Abstract books will not be mailed prior to the meeting. Participants will receive the book of abstracts in Indianapolis.

On-Site Registration

Registration will be located in front of Exhibit Hall E (see map on page 158) in the Indianapolis Convention Center, 100 S. Capitol Avenue, Indianapolis, IN 46225. Registration hours for the ASAS meeting, including special symposia and other events, will be as follows:

Monday, July 19, 1999 1:00 p.m. - 4:00 p.m.
Tuesday, July 20, 1999 7:00 a.m. - 8:00 p.m.
Wednesday, July 21, 1999 7:00 a.m. - 7:00 p.m.
Thursday, July 22, 1999 7:30 a.m. - 5:00 p.m.
Friday, July 23, 1999 7:30 a.m. - 12:00 Noon

The telephone number for the ASAS Registration Desk during the meeting is 317-262-0719.

Reminder

Wear your name tag! It’s your admission to the Meeting Events. Tickets for special events and meal functions will be collected at the door or at the table for specific events. Your tickets and name badge will be mailed to you if you register prior to July 9. All tickets will look alike, but event name, location and date will appear on them. Be sure to give the ticket taker the appropriate ticket.

ASAS Denim Shirts

100% cotton stonewashed denim long sleeve shirts embroidered with the ASAS acronym in navy blue above the left chest pocket are available. Double stitched button down collar. Full placket front, double stitched, with seven woodtone buttons. Sizes: S, M, L, XL (men’s sizes). Order in advance to ensure availability.

Introducing the Journal of Animal Science on CD-ROM

We are now taking pre-orders for a new CD-ROM that contains complete Issues of Journal of Animal Science from 1996 through the most recent issue of 1999 at the time the CD is
produced. The articles, in PDF format like those on our Web site, will be fully searchable across issues and volumes. The cost for ASAS members is $25; the cost for nonmembers is $90. The annual meeting registration form includes a line for ordering the CD, which we will deliver at the annual meeting in Indianapolis. Please indicate your interest on the registration form so we can be certain to produce enough CDs to meet demand.

Questions

All program registrations will be handled by the ASAS Business Office. All inquiries about preregistration or the 1999 ASAS Annual Meeting should be made to the ASAS Business Office, 1111 N. Dunlap Avenue, Savoy, IL 61874; Phone: (217) 356-3182; Fax: (217) 398-4119; E-mail: asas@assochq.org.

Special Needs

All rooms at the Convention Center are wheelchair accessible. Please indicate any special needs when sending in your registration form.
ACCOMMODATIONS

Hotels
The Westin Indianapolis
ASAS Headquarter Hotel

Rooms have been blocked at five hotels, all within walking distance of the Indianapolis Convention Center (see downtown Indianapolis map on page 32D). A housing information and reservation form is included (page 32C) with your preregistration materials. You may contact hotels directly with any questions you have regarding their guest room accommodations; however, all reservations (and changes to existing reservations) must be made through the ASAS Housing Bureau, (address information below). Your housing reservation form is to be returned by June 4, 1999 directly to:

ASAS Housing Bureau

TRANSPORTATION

Travel Planning

Conventions in America (CIA) is the official travel agency for the annual meeting. Call 1-800-929-4242 and ask for Group #695 to receive discounts on the lowest available fares of Northwest Airlines and USAirways. All CIA customers receive free flight insurance of $100,000. Visit the CIA website: www/scitravel.com (use #695). Outside US & Canada, call 619-232-4298 / Fax 619-232-6497 or Email - flycia@scitravel.com. If you call direct or use your own agency, refer to these codes:
Northwest 1-800-328-1111, Worldfile #NY468
USAirways 1-800-334-8644, Goldfile #97691047

Northwest Airlines Discount

Northwest Airlines is an official air carrier for the ASAS Annual Meeting. Save from $30 to $100 on applicable fares of $200 or more. Travel between July 14-31, 1999. Call Northwest at 1-800-328-1111 or your travel agent. Use Worldfile #NY468 (for continental North America) or Worldfile #RB253 (inbound from Europe & Asia).

National Car Rental Discount

National Car Rental is the official car rental company of ASAS. Call National at 1-800-CAR RENT or your travel agent. Please use Contract #5710095 to receive the association discount.

Indianapolis City Smart Guide Book

Whether you are a visitor, a new resident, or an Indianapolis native, you’ll find City-Smart Guidebook Indianapolis indispensable. Sights, restaurants, galleries, museums, shopping, sports and recreation—everything you need to explore Indianapolis from top to bottom, like a native. You may order this book on the registration form, a $12.95 value for the special price of $9.00. The book will be mailed to you, if the order is received by June 18, and after that date if available.

Shuttle Service

All hotels are within walking distance of the Indiana Convention Center this year, so conference shuttle service is not necessary. Indy Go The Transit Store has regular bus route services for the city, Tel: 317-635-3344. Non-rush hour fares are $.75 and rush hour fare is $1, half fare for seniors and disabled persons. Exact change is required. They also operate an “Open Door” lift-equipped van, Tel: 317-917-8747. Advance reservations are required and the fare is $1.50 one way.
**Taxi**

Taxi line fares running from the Indianapolis International Airport to downtown Indy are approximately $18 - $22 per trip. There are also van and limousine services for shared rides that are available at the grounds transportation office across the street from the terminals at the airport. Fares for shared transportation are approximately $6 - $9.

**Automobile**

Indianapolis is centrally located in the state and is accessible from I-74, I-65, I-70, and I-69. The Indianapolis Convention and Visitors Center is located at One RCA Dome, Suite 100, at the intersection of Maryland Street and Capitol Avenue.

If approaching Indy from the north: I-65 South to West Street Exit 114, travel south on West Street (Dr. Martin Luther King, Jr. Drive) to Maryland Street, turn left (east) on Maryland and the ICVA will be on the right.

If approaching Indy from the east: I-70 West to I-65 North, exit I-65 North at the West Street Exit 114, travel south on West Street (Dr. Martin Luther King, Jr. Drive) to Maryland Street, turn left (east) on Maryland and ICVA will be on the right.

If approaching Indy from the south: I-65 North to I-70 West, exit I-70 West on West Street Exit 79A, travel north on West Street/Missouri Street to Maryland Street, turn right (east) on Maryland and the ICVA will be on the right.

If approaching Indy from the west: I-70 East to West Street Exit 79A, travel north on West Street/Missouri Street to Maryland Street, turn right (east) on Maryland and the ICVA will be on the right.

There are several parking garages in downtown Indy. Garages on Capitol and Illinois Streets will provide convenient parking for the Convention Center, however, the parking garages will fill fast so plan ahead. Most of the hotels have some parking accommodations. Contact the hotel for more specific information.
Information Desk

A general information desk providing local information on entertainment, dining and points of interest will be located outside of Exhibit Hall B in the Convention Center.

Black or Orange Shirts

All Host Committee Members can be identified by black or orange shirts. Purdue University, Elanco Animal Health, United Feeds, USDA, ARS, and University of Illinois are serving as your hosts! If you’re lost or have a question while attending the meeting, please look for the smiling faces. Also, don’t forget to thank them for hosting a great meeting!

Babysitting Services

The service provided by Babysitters to the Rescue is available for the downtown Indy area. All sitters have a college education and have undergone a thorough background check before being hired. The approximate charge is $15.00 an hour for a single family of 3-4 children. There is a 4 hour minimum per family. Call Nancy Reiter at 317-257-7999 for more information.
Publicity/Public Relations/ Media Center

Room 140 in the Indianapolis Convention Center will be reserved as a Publicity and Public Relations Center. Publicity, news releases, and the daily newsletter will be issued from this location. The telephone number for the Media Center will be 317-262-0718.

Business Copy Center

A Business Copy Center for your use is located on the 1st floor of the Indianapolis Convention Center near the Capitol Avenue entrance. You may purchase small business items and have copies made at your expense.

Slide and LCD Projector Preview Room

A room for you to preview your slides and test your computer with an LCD projector before your presentation will be located in the Indianapolis Convention Center, Room 160. You will need to provide your own slide carousel and laptop computer.

Attention LCD Projector Users

Meeting presenters using computer display projectors should review the following guidelines before coming to Indianapolis:

IMPORTANT NOTE: All LCD presenters must check in with staff in Convention Center, room 162.

ASAS will again provide LCD projectors for those who have requested this mode of delivery. All presenters will be contacted via e-mail. If you have questions, please contact:

Mickey A. Latour at gator@purdue.edu

All individuals that have requested LCD will be contacted via e-mail with specific instructions. Briefly, we will request that Individuals send their presentations via FTP or attached email ONE-WEEK prior to the event, so we can get all presentations in their proper location. In addition, Room 162 will be available during the meeting. Presentations not submitted prior to the meeting must be delivered to Room 162 AT LEAST the afternoon prior to the presentation. Our goal is to load a particular section of presentations on a single laptop computer. We will need plenty of volunteers to provide laptops. Individuals that plan to use their own computer need to arrive to their session AT LEAST 30 minutes in advance of the START of the session (not your talk) to test their compatibility with the projection equipment in their presentation room. (Room 160 and 162 will also be available for this purpose. If speciality software is required to run their presentation (QuickTime, RealPlayer, etc) then those individuals need to bring their own computer.

In the unlikely event that the LCD or computer fails during a presentation, the presenter must be prepared to continue verbally.

For those individuals who plan to use their own laptop, have your display set to 640x480 or 800x600 (avoid 1024x768 - it may not display correctly). Know how to configure your video settings in case there is a problem.
Avoid delays from booting your computer at the start of the presentation. Some computers require the projector to be attached in order for the video port to be activated - use a computer that is able to detect a video display without requiring a reboot.

Load the presentation software and open the slide show prior to the presentation, and then put the computer in a “suspend” or “sleep” state. At the start of the presentation, attach the projector to the video port, and then “wake” or “resume” the computer.

Know how to activate your computer’s video port - this often requires a specific key combination and is different on different computers.

Bring your computer’s power cable/cord and use it to be sure of a strong signal from the computer to the projector. Do not plan to power your computer with the battery. You will not need an extension cord.

There will be no remote control, so plan on running the keyboard yourself.

It is highly recommended that you use your computer with an 800x600 display projector prior to the meetings so you will be familiar with the connection and configuration required for your type of computer.

A preview room (160) with LCD panel will be available.

**Special Note for Macintosh Users**

You must bring your own docking cable for the connection between the computer and the projector.

You must have “Video Mirroring” on your system. This can be loaded from the System disks (version 7.0 and higher).

**ARPAS Continuing Education Units**

The ASAS Annual Meeting is approved for up to 28 continuing education units (CEUs) for American Registry of Professional Animal Scientists certification requirements.

Sign up to take an ARPAS exam (page 165) and return with your registration. Exams will be given in Room 204. Times to be announced.

**Sponsorship Opportunities**

There are numerous sponsorship opportunities for companies wanting additional recognition or for those that want to support the organization. Some of the activities your contribution could
support include the Opening Reception, Cyber Café, printing of the abstracts issue, a scientific session, Fun Run, Golf Tournament, or the Daily Newsletter. All donors will receive excellent recognition and top donors (more than $2500) get a complimentary exhibit booth (a $700 value). For more details, visit the Meeting Web Site at <www.asas.org or contact the marketing department at 217/356-3182 or by e-mail: lorenan@assochq.org.

INDIANAPOLIS INFORMATION

Indianapolis Entertainment

American Cabaret Theatre

Located in the beautifully renovated ballroom of the historic downtown Athenaeum, the Cabaret Theatre presents a unique blend of music, song, dance and visuals. The theatre is in its sixth season presenting original musical revues conceived and written by founding artistic director Claude McNeele. Playing the week of July 19 is "Fabulous Fifties". Contact the box office for tickets Mon.-Thurs., 9:30am-5pm and Fri.-Sat, 9:30am-8pm at 317-631-0334.

Beef & Boards Dinner Theatre

Visit Beef & Boards Theatre on July 22nd and enjoy a buffet dinner followed by the Broadway production “Nunsense Jamboree”. Performances are by professional, equity companies. Doors open at 6:00pm, buffet dinner at 6:30pm and performance at 8:00pm. Reservations are suggested. Contact the Theatre at 317-872-9664 for tickets and information.

Indianapolis Indians

Check out Indy’s AAA International League Indians as they play the Buffalo Bison July 19th through the 22nd at Victory Field located just west of the Convention Center. The Indians are affiliated with the Cincinnati Reds and have been Indy’s professional baseball team since 1887. Game times: July 19, 20 and 22 at 7:00pm; July 21 at 2:00pm. Order tickets by phone at 317-239-5151.

Greatimes

An excellent choice if you have children at the meetings, Greatimes offers miniature golf, go carts, bumper boats, children’s train, batting cages, merry-go-round, super collider, arcade games, and indoor children’s play land. Admission is free but there is an activity charge. Contact 317-780-0300 for more information.

IMAX 3D Theatre

Located downtown at the White River State Park, view films 10 times the size of normal films on a screen six stories high. Call 317-233-4629 for show times and ticket information.

Murat Theatre

Formerly known as the Murat Shrine, the Murat Theatre hosts Broadway shows, top-name entertainers and musicians, special events, and trade shows. It is the largest of the 190 Shrine temples in North America and the birthplace of the Shrine Circus. Call 317-231-0000 Mon.-Fri., 9:30am-6:00pm for show and concert information for the week of July 19th.
Indianapolis Symphony Orchestra

Enjoy an excellent musical experience at the ISO! Under the brilliant direction of Raymond Leppard, the orchestra performs Classical, Pop, Family, Educational and Holiday concerts. Contact the ISO at 1-800-366-8457 for concert and ticket information for the week of July 19th.

United Artists Entertainment Complex

Visit a virtual theme park at the Entertainment Complex featuring Showscan, a motion theater of simulated high-speed action and Virtual Glider, where patrons can fly over a metropolis of the future or the Grand Canyon. Starport also offers Sega City featuring 60 of the latest arcade attractions and Virtual World, the best virtual multi-player games in town. Call 317-237-6498 for more information.

Conner Prairie

Take a trip to an 1836 village where costumes, buildings and even the actor’s speech and conversation are authentic. Tour the historic 1823 William and Elizabeth Conner Estate and try 19th-century activities, games, and crafts at the hands-on Pioneer Adventure Area. Also enjoy horse drawn wagon rides and Symphony on the Prairie (Thurs. and Fri. only). For more information and ticket prices call 800-966-1836.

World Mardi Gras

Four Bars for Five Bucks! The World Mardi Gras Entertainment Complex is located in the 4th level of Circle Centre Mall and hosts the hottest national, regional, and local live music acts. The great entertainment is complimented by the state-of-the-art lighting and a festive New Orleans backdrop. Call 317-630-5483 for more information.

Indianapolis Attractions

Indianapolis Zoo

Located downtown, the Zoo opens daily at 9:00am and connects animals, plants and people. Highlights include Indiana’s largest aquarium; daily dolphin shows, open exhibit areas with 350 different animal species; seasonal elephant, pony, trolley, train and carousel rides; plus “EdZootainment” shows and dynamic botanical exhibits. Call 317-630-2001 for admission fees and information.

Scottish Rite Cathedral

Tour the Tudor-Gothic style cathedral weekdays from 10:00am - 3:00pm. Judged during its early days as one of the world’s most beautiful buildings and built in 1929, the Cathedral is constructed of marble, Russian white oak beams and paneling. Gothic tower rises 212 feet above street level and contains one of the largest carillons in the US. Admission is free. Contact 317-262-3100 for more information.

The Children’s Museum of Indianapolis

Indianapolis houses the world’s largest children’s museum. An exciting adventure for children and adults of all ages. Visit the museum to view the world from a seat in the CineDome theater,
dig for fossils, try your skill at rock-climbing, hop a ride on a turn-of-the-century carousel and sail through space in the SpaceQuest Planetarium. The museum is open Mon.-Sun., 10:00am-5:00pm. Call 317-924-5431 for admission fees and information.

**Broad Ripple Village**

This northside neighborhood 20 minutes from downtown features a concentration of eclectic boutiques, art galleries, sidewalk cafes, nightclubs, pubs, vintage clothing stores, and ethnic restaurants. Visit the Convention Center Information Desk or the Indianapolis City Center for more information.

**Eiteljorg Museum of American Indians and Western Art**

The Eiteljorg houses one of the finest collections of American Western and Native American art and artifacts. The museum has permanent exhibits, traveling exhibitions, daily films, demonstrations and a large museum store. Located within walking distance of downtown, the museum is open Mon.-Sat., 10:00am-5:00pm and Sun., noon-5:00pm. Call 317-636-WEST for admission fees and information.

**Indianapolis Motor Speedway Hall of Fame Museum**

Indianapolis is the home of the greatest spectacle in racing! Visit one of the world’s largest, most varied collections of racing, classic and antique cars. More than 30 Indianapolis 500 winning cars. View a half-hour film presented in the Tony Hulman Theatre depicting the history of the track and race highlights. Also see video presentations, racing memorabilia and visit the gift shop. Call 317-484-6747 for admission fees and information.

**White River State Park**

Indiana’s first urban state park is located on 250 acres in downtown Indy. The park capitalizes on its urban setting by offering a mix of top-quality attractions, indoor and outdoor recreational facilities and natural green spaces. Included in the park are the Indianapolis Zoo, Eiteljorg Museum, Victory Field and IMAX 3D Theater. Call 317-634-4567 for more information about how to access the walkways to get a great view of the city.

**Soldier's and Sailor's Monument**

Travel by elevator to the top of the Monument for a unique view of the city. The 284-foot tall Monument was completed in 1902 and stands as tribute to those in the armed forces who died in the Civil War. Operating hours are Wed.-Sun., 11:00am-7:00pm. Call 317-232-7615 for more information.

**Garfield Park Conservatory**

Enjoy an Amazon River Region Rain forest complete with a large collection of Bromeliads and epiphytes planted in a natural setting. Admission is $1-$2 and hours are Tues.-Sat., 10am-5pm. Call 317-327-7184 for more information.
Indianapolis Museum of Art

Among the oldest art museums in the US, the Museum is fully integrated with a 52-acre park including gardens, five pavilions, lecture hall, theater, concert terrace, restaurant, shops and greenhouses. Permanent collections include European and American paintings, contemporary art, Asian art, textiles and more. Call 317-923-1331 for operating hours and admission information.

James Whitcomb Riley Museum Home

Visit the home where the most well known Hoosier poet, James Whitcomb Riley, spent the last 23 years of his life as a paying guest. One of the finest Victorian preservations in the US, many of Riley’s personal belongings are showcased here. Call 317-631-5885 for hours and admission information.

Morris-Butler Home

Take a tour through this beautifully restored 1865 Second Empire-style home filled with rare furnishings and elegant decorations reflecting the lifestyle of an upper-class Indianapolis family. Tours and themed events emphasis Victorian-era architecture, home decoration and 19th century history. Call 317-636-5409 for more information.

President Benjamin Harrison Home

Built in 1875, this 16-room Italianate mansion was home to the 23rd President of Harrison the United States as he campaigned for the presidency in 1888. The home has been carefully restored to the late 1800s appearance with original Victorian furnishings and political mementos. Call 317-631-1898 for more information.

Chateau Thomas Winery

This Chateau Thomas Winery located five miles west of the Indianapolis Airport is the largest winery in the greater Indianapolis area. Opened in 1984, the winery offers a tasting room, gift shop and production facilities. Call the winery at 888-761-9463 for more information.

ASAS Awards Program and Ice Cream Social

The ASAS Awards Program has been scheduled for 8:00 p.m., Thursday, July 22, in Grand Ballroom 5 at the Westin Hotel. It will be followed by an Ice Cream Social so donors of awards can be thanked and recipients can be congratulated. The Awards Program and Ice Cream Social are open to all meeting participants, their families, and friends. (PLEASE REGISTER ON THE REGISTRATION FORM TO GIVE US AN ACCURATE COUNT)

Luncheon Programs

Minority and Women’s Issues Luncheon/Program

Thursday, 12:00 noon - 2:00 p.m.
Westin Hotel, House

If you plan to attend this luncheon, don’t forget to indicate this on the registration form. Tickets for the luncheon will be $18.00.

Extension Luncheon

Thursday, 12:00 noon - 1:00 p.m.
Westin Hotel, Council

If you plan to attend this luncheon, don’t forget to indicate this on the registration form. Tickets for the luncheon will be $21.00.

International Reception

ASAS Members I strongly encourage you to attend the International Reception at ASAS in Indianapolis this year, to be held from 5-6pm, July 22, in the Maryland West Lobby of the Convention Center. ASAS has a significant number of International members, who contribute substantially to our programs, our journal and our meetings. These individuals carry the image of ASAS and the good feeling of friendship around the world when they return to their home country. I ask that you help us show our appreciation of their contributions by celebrating their membership and contributions at this reception. Please sign up, plan to attend, and bring at least one other friend! Drs. John Campbell (Oklahoma State University), Louis Boyd (University of Georgia) and Robert McDowell (Cornell University and North Carolina State University) join me in this enthusiastic encouragement! See you on July 22 at 5pm! It is the most important thing that you can be doing at that time and on that date! Leonard S. Bull (North Carolina State University; Past President).

Hospitality Room

The hospitality lounge, located in Room 150 offers adults a place to relax, get acquainted, and enjoy light refreshments. Information on scheduled ASAS activities and meetings and highlights of the Indianapolis area will be posted and/or available here.
**Retiree Social**

All retirees and their spouses are cordially invited to attend a social gathering to relax, reminisce, and enjoy refreshments Thursday, July 22 from 1:00 p.m. - 4:00 p.m. in Room 150 of the Convention Center.

**Cyber Café**

Let technology keep you caught up with work and in touch with friends and family during the ASAS Annual Meeting. ASAS meeting attendees can attend the annual meeting knowing they can easily keep up with business activities at work by visiting the Cyber Café. At the Cyber Café, meeting attendees can check e-mail throughout the day, display their companies web site, and meet with colleagues to exchange information found on the Internet. The Cyber Café will be located in Room 151 and 152 so all meeting attendees have easy access to this area. Meeting attendees can utilize the many computer stations, all with access to the Internet, each day during the conference.

**Placement Center**

A Placement Center will be located in the Indianapolis Convention Center, Room 151/152. Employers are invited to submit 20 copies of all position descriptions and prospective employees are invited to submit 30 copies of brief (2-page) résumés prior to the meeting. The job announcements and résumés will be organized into the following categories (please indicate preference) for posting and distribution.

- Animal Health, Environment and Behavior
- Breeding and Genetics
- Extension
- International Animal Agriculture
- Growth and Development
- Meat Science and Muscle Biology
- Nonruminant Nutrition
- Pharmacology and Toxicology
- Production and Management
- Reproductive Physiology
- Ruminant Nutrition
- Teaching

Should you have any questions please contact Dr. Mark Diekman by e-mail: mdiekman@ansc.purdue.edu or 765-494-4829. Mail job postings and résumés to:

Dr. Mark Diekman  
Department of Animal Science  
Purdue University  
West Lafayette, IN 47907

In keeping with the '98 Joint Meeting in Denver, ASAS will again sponsor an On-Line Placement Center for the benefit of the membership. This opportunity will be in addition to the traditional Placement Center, where printed position descriptions are displayed on poster board.

The On-Line Placement Center will be a web site where prospective employees can review your job description; go directly to your company, university, or agency web site; or even
respond immediately via e-mail to your ad. The cost to include your company’s listing on the On-Line Placement Center will again be only $20, which covers a two-week listing (July 14 through 28), active links to your web site, and an active e-mail link to your contact person.

Announcements should include the name of your organization; position title; description of the position, including requirements, duties, and salary; deadline for applications; and start date, if appropriate. Please do not include logos or other artwork and try to contain the ad to a single paragraph.

The procedure for submitting a job posting will be slightly different than last year. Rather than submitting a job announcement via e-mail to the Association Headquarters, a submission form will be available electronically through the ASAS web site (www.asas.org/). The form will be available beginning June 1, and job announcements will be accepted through July 7. At the time the form is submitted electronically, please also send payment ($20) to ASAS at 1111 N. Dunlap Ave., Savoy, IL 61874 and indicate that payment is for the placement of an ad with the On-Line Placement Center in conjunction with the 1999 Annual Meeting of ASAS.

If you have any questions or comments about this service or the submission process, please contact Amy Kemp at amyk@assochq.org or phone 217/356-3182.

SCHEDULED EVENTS AND TOURS

Opening Session
Tuesday, July 20, 6:00 p.m.
Convention Center, Sagamore Ballroom

Eric Bradford, Professor Emeritus of the University of California, Davis, will provide the opening session address entitled “Animal Agriculture and Global Food Supply.” This topic comes from the CAST Task Force on “Contributions of Animal Agriculture to Meeting Global Human Food Demand.” Many ASAS members have been anticipating hearing the results of this CAST Task Force, and this is the opportunity to be among the first to learn about its content and recommendations.

Opening Session Reception

A reception will immediately follow the conclusion of the Opening address. This is a good time to catch up with friends and colleagues. All meeting attendees and families are invited. Please register on the registration form.

Thanks to the following for sponsoring the Opening Reception:
Certified Angus Beef
IPC
Monsanto Dairy Business

Youth Program

Due to the numerous opportunities in the Indianapolis area, no special youth programs or tours have been scheduled. For a list of area attractions, refer to page 16 or contact the Indianapolis Convention & Visitors Bureau at the address or telephone given on page 8.
All tours will depart from the Indianapolis Convention Center Maryland Street Lobby located across from room 104. Please meet 15 minutes prior to departure time. Tours are based on a minimum number of participants. ASAS reserves the right to cancel a tour if the minimum numbers are not met.

Purdue Animal Sciences
Research and Education Center

Monday, July 19, 1999; 10:00a.m. - 2:00p.m

Come visit our research facilities at our Purdue ASREC Open Center House. Transportation is on your own. Contact the Purdue Animal Sciences Research and Education Center at 765-583-2400 to register and receive directions.

Tour A:

Elanco Animal Health
Tuesday, July 20, 1999; 8:00a.m. - 12:30p.m.
Limited to 180 participants. Cost $10.00 (Lunch is on your own.)

Take a bus ride to tour Elanco Animal Health’s Greenfield Research Laboratories. From the entrance to the 1,200-acre research and development complex you will see the distinctive Spanish Buildings which are on the Historical Register. This facility opened in 1912 and has played a vital role in the development of human and animal pharmaceutical products. You will visit modern toxicological evaluation laboratories to learn more about the elaborate process and thorough testing needed to ensure the safety of products for animals, humans and the environment. Find out how a new drug is discovered and about the many studies which support the approval of a new drug.

Tour B

United Feeds Research Farms
Frankfort, IN
Tuesday, July 20, 1999; 8:30a.m. - 1:30p.m.
Limited to 100 participants. Cost $10.00 (Lunch is on your own)

Tour United Feeds Research Farms near Frankfort and see their two-site research/production facilities. You will visit a 1500 sow breed-to-wean research facility stocked with Australian genetics. In addition, you will tour the nearby nursery-to-finish unit where over 11,000 pigs are fed at one time by a computerized feeding system. United Feeds’ Research and Development Team will be there to discuss future needs and trends in the industry. Coveralls and boots will be provided to be worn over your street clothes.

Tour C

Conner Prairie
Tuesday, July 20, 1999; 9:30a.m. - 3:00p.m.
Limited to 100 participants. Cost $35.00 (Lunch is included.)

Travel north of Indianapolis to a living history museum of the year 1836. Conner Prairie is an authentic recreation of the buildings, furnishings, costumes and speech and conversation present during colonial days. Experience authentic frontier activities including a camp meeting, a frontier wedding celebration, and the process of preserving a hog while enjoying
horse drawn wagon rides. Tour the William Conner house, the centerpiece of Conner Prairie and well as Conner Prairie’s museum center including an exhibit gallery, gift shop and restaurant.

**Tour D**

**Historical Homes and Governor’s Mansion**  
Wednesday, July 21, 1999; 9:00a.m. - 3:00p.m.  
Limited to 50 participants. Cost $40.00 (Lunch is included.)

Experience downtown Indy’s finest homes as you tour the Indiana Governor’s Mansion, President Benjamin Harrison’s Home, the Morris-Butler House and James Whitcomb Riley’s Home. President Benjamin Harrison campaigned for the 23rd presidency of the United States from his 16-room Italianate mansion built in 1875. The home has been carefully restored to its late 1800’s appearance with original Victorian furnishings and political momentos. The Morris-Butler House is an 1865 Second Empire-style home filled with rare furnishings and elegant decorations reflecting the lifestyle of an upper class Indianapolis family. Finish your tour at Lockerbie Square where the famous Hoosier poet James Whitcomb Riley spent the last 23 years of his life. The home is considered to be one of the most perfectly preserved Victorian houses in the U.S. by historical experts.

**Tour E:**

**Nashville, IN**  
Wednesday, July 21, 1999; 9:00a.m. - 3:30p.m.  
Limited to 100 participants. Cost $35.00 (Lunch is included.)

Take a short bus ride to rustic Nashville, IN to spend the day shopping in quaint shops offering candles, crafts, antiques, homemade chocolates and much more. After shopping, relax with lunch at the historical Nashville Inn. Finish the tour with a bus ride through beautiful Brown County State Park.

**Tour F:**

**Women’s Health Seminar, Eli Lilly & Company**  
Wednesday, July 21, 1999; 1:00p.m. - 4:00p.m.  
Limited to 200 participants. Cost $10.00 (Lunch is on your own.)

Attend the Women’s Health Seminar at Eli Lilly & Company’s Corporate Center in Indianapolis. Women are increasingly becoming a strong voice in the condition and quality of their own and their families’ health care. This seminar can address women’s health issues. Possible topics could include: Cardiovascular Disease in Women, Breast Cancer, The Heartbreak of Melanoma, Chronic Fatigue Syndrome, Relax: You have only a few minutes, Celebrate Menopause, Coping with Depression, or other women’s health topics.

**Tour G:**

**Eli Lilly & Company Research Laboratories**  
Thursday, July 22, 1999; 9:00a.m. - 11:30a.m.  
Limited to 80 participants. Cost $10.00 (Lunch is on your own.)

The Lilly Research Laboratories tour features stops at the mammalian cell culture facility, discovery research buildings, “Demo” the pigeon -- a demonstration of behavioral
pharmacology, 3-D human insulin hexamer -- a demonstration of computational chemistry, replica of the original Lilly laboratory, and Lilly Corporate Center campus. Learn about the Eli Lilly Company’s focus on discovery research, the drug discovery process starting with the synthesis/isolation of molecules and development of assays to test the molecules, the magnitude of Lilly research practices, state-of-the-art technology, and a brief history of the company and its founders.

**Golf Tournament**

Plan to join us Tuesday, July 20 at the Coffin Golf Club in Indianapolis. The course is about 15 minutes from downtown and is ranked 13th in the top 25 most difficult Indy-area golf courses. Expect a challenge and a memorable course. Vans will shuttle people from the Convention Center.

Please meet at the Maryland Street Lobby at 7:00am for departure. Tee times will begin at 8:00 a.m. We will use a scramble format and attempt to pair groups by ability. Please indicate on your registration form a handicap or approximate 18 hole score. Cost is $50 and will include green fees, cart, lunch, prizes and transportation to and from the course.

**Fun Run**

Start your day with a Fun Run on Wednesday, July 21 at 6:30am. The 5K run will take place at the IUPUI Campus. The $15 participation fee will cover refreshments and the 1999 Fun Run memorabilia. The IUPUI campus is within walking distance of the Convention Center. Meet at 6:15 a.m. at the Maryland Street Lobby to walk over as a group.

**Race in to the Student Mixer!**

An ASAS Board-sponsored Student Mixer will be held Wednesday night, July 21, 7:00 p.m. till ? at the World Mardi Gras Entertainment Complex (Flashbaxx and Brewski’s) in the 4th level of Circle Center Mall. The Student Mixer will provide plenty of opportunity for fun as well as allowing you a chance to socialize, catch up, and meet new people. Please sign up on the registration form so that we can provide an estimate of how many people will attend. There is a nominal cost of $3.00 per person and beverage tickets will be sent with your registration confirmation.

**Lunch in Exhibit Hall on Wednesday & Thursday**

For your convenience a box lunch will be served in the Exhibit Hall for those individuals who order and pay for it on the registration form. You will receive a ticket with your confirmation and name badge. There will be a limited number of box lunches available for purchase in the Exhibit Hall for those individuals who do not order it in advance. The box lunches available for sale will be on a first come, first serve basis.

Phytochemicals as Nutriceuticals

Designing Supplements for Grazing Beef Cattle
Role of the Male and Female in the Regulation of Reproduction

Tuesday, 8:30 a.m. - 5:00 p.m.
Convention Center White River Ballroom

Morning Session: The Male’s Role

Moderator: Dr. C. R. Barb, USDA, ARS, Athens, Ga
8:30 Welcome, F. N. Schrick, University of Tennessee, Knoxville
8:45 Neuroendocrine Regulation of Reproduction in Male Domestic Animal Species: Role of Excitatory Amino Acids. Dr. Mark Estienne, University of Maryland-Eastern Shore, Princess Anne.
9:30 Efficiency of Spermatogenesis in Animals and Humans. Dr. Larry Johnson, Texas A&M University, College Station.
10:15 Fertilization: A Male’s Perspective. Dr. David Miller, University of Illinois, Urbana.
11:00 Panel Discussion
11:15 Presentation of the L. E. Casida Award by Dr. Terry Etherton, Chairperson, Casida Award Committee.
12:00 Lunch

Afternoon Session: The Female’s Role

Moderator: Dr. J. E. Tilton, North Dakota State University, Fargo
1:30 Novel Events in Uterine Organization and Function. Dr. Frank Bartol, Auburn University, AL.
2:15 Insights into Conceptus-Reproductive Tract Interactions in the Pig. Dr. George Foxcroft University of Alberta
3:00 Fetal Development of Manipulated Embryos: Possible Associations with Uterine Function. Dr. Charlotte Farin, North Carolina State University, Raleigh.
3:45 Panel Discussion

TECHNOLOGY FORUM

Focus on Beef and Pork
Overall Sponsors: Pfizer, Inc., and Feedstuffs

Wednesday, July 21 1:00 p.m. to Thursday, July 22 11:00 a.m.

The following sessions will be held between Wednesday noon and Thursday at 11 a.m. Our goal is to give you some of the latest information that will aid the beef and pork production chains. This is designed for anyone desiring to transfer knowledge - industry, extension, research, teaching, etc. Individuals registering for Tech Forum may also feel free to attend other sessions during this time interval.

- Application of Nutritional Knowledge for Developing Eco-nutrition Feedings Programs on Commercial Swine Farms. Sponsored by Novus International, National Pork Producers Council, and Optimum Quality Grains, LLC (See page 63)
- Implications of Pre-Harvest Food Safety on Animal Production and Management Practices Symposium. Sponsored by IMC and ARPAS (through support of Hoechst Rousel Vet) (See page 70)
- Roche-ASAS Foundation Beef Symposium- Beef Carcass Quality and Yield Sponsored by Roche and ASAS Foundation. (See page 98)
● Advances in Swine Reproductive Management. Sponsored by Alliance Medical (See page 99)
● Lean Growth Modeling. Sponsored by E-Market and National Pork Producers Council (See page 99)
● Technology Forum Poster Session and Reception. (See page 77)

The poster sessions will be located with the commercial exhibits in Exhibit Hall E in the Indianapolis Convention Center. Poster sessions will be all day Wednesday, Thursday, and Friday until noon. Posters will be staffed by a presenter at times designated in the scientific program, but will be available for viewing from 8:00 a.m. to 5:00 p.m. on the day on which the session is scheduled. The Tech Forum posters will be up from Wednesday 1:00 p.m. to Thursday 11:00 a.m. and will be staffed by a presenter from 4:30 p.m. - 6:00 p.m. on Wednesday. The poster board surface is 48" high and 96" wide. Poster presenters must supply their finished poster and the push pins to display their poster. The Exhibit Hall will open at 7:00 a.m. to presenters on day of scheduled poster presentation.

Antibiotic Update: Resistance, Regulations, and Risk Assessment
Sponsored by: FASS Committee on Food Safety, Animal Drugs and Animal Health
Chair: Dr. W. A. Olson, Center for Regulatory Agencies, Virginia

Wednesday, 8:00 a.m. - 11:30 a.m.
Room 208/209

Issues may include:

Current and Proposed Regulatory Programs:
   The FDA Framework
   Risk Assessment to Monitor Antimicrobial Use in Livestock and Poultry
NARMS: The National Antimicrobial Resistance Monitoring System
   A Global Viewpoint of the Impact of Banning Antimicrobials
   What has been the Impact of Banning Antimicrobials in Sweden?

Discussion Session will follow.

Exhibit Hall E

Board No. Abs. No.

64 419 Neonatal handling permanently altered behaviour and basal and stressor- induced hypothalamic-pituitary-adrenal axis activity in pigs. S. A. Weaver*1, M. J. M. Meaney2, W. T. Dixon1, and A. L. Schaefer3, 1University of Alberta, Edmonton, Alberta, Canada, 2McGill University, Montreal, Quebec, Canada, 3Agriculture and Agri-Food Canada, Lacombe, Alberta, Canada.

65 420 A prolonged surge in cortisol is evoked in pigs infected with Actinobacillus pleuropneumoniae. B. Ramanathan1, K. J. Wright1, J. L. Turner1, C. M. Hill1, S. S. Dritz1, B. Fenwick1, J. A. Carroll2, and J. E. Minton*1, 1Kansas State University, Manhattan, KS, 2Animal Physiology Research Unit, ARS-USDA, Columbia, MO.

67 422 Effect of vitamin E and chromium-methionine supplementation on serum levels of immunoglobulin G and M, and aspartate aminotransferase enzyme in calves recently arrived to feedlot. L. Almeida* and R. Barajas, Universidad Autonoma de Sinaloa (Mexico).

68 423 Streptozotocin-induced diabetes mellitus in beef cows. H. L. Higdon III*1, J. C. Spitzer, S. N. Johnson, S. P. Kennedy, G. L. Burns, and W. C. Bridges, Jr., Clemson University, Clemson, SC, USA.

70 425 Withdrawn

71 426 Effects of locoweed toxin (swainsonine) on bovine oocyte fertilization in vitro. S. Wang*1, K. E. Panter2, G. R. Holyoak3, G. Liu4, R. J. Molyneux3, R. C. Evans1, and T. D. Bunch1, 1Utah State University, Logan, UT, 2USDA-ARS, Poisonous Research Laboratory, Logan, UT, 3USDA-ARS, Western Regional Research Center, Albany, CA.

72 427 Fish oil supplementation decreases average daily gain and changes the immune response in orphaned, milk-fed lambs. J. L. Bardugone*, J. H. Herbein, M. C. Wulster-Radcliffe, and G. S. Lewis, Virginia Polytechnic Institute and State University.

73 428 Interaction of Nutrition and Acacia berlandieri on Cortisol Production in Female Goats. K. N. Livingston*1, J. W. Koch1, C. M. Hensarling2, S. S. Siecknius2, T. D. A. Forbes2, R. D. Randel3, T. H. Welsh, Jr1, and H. R. Vera-Avila4, 1Texas Agricultural Experiment Station, College Station, 2Uvalde, 3Overton, TX, 4INIFAP, Mexico.

PHYSIOLOGY AND ENDOCRINOLOGY 4

Follicular Physiology Minisymposium
Chair: Dr. C. Chase, USDA, ARS, Brooksville, FL

Wednesday, 1:00 p.m. - 4:45 p.m.
Room 206/207

Abs. Time No.

1:00 18 Factors regulating apoptosis during folliculogenesis in pigs. H. D. Guthrie*1 and W. M. Garrett1, 1Germplasm and Gamete Physiology Laboratory, ARS, USDA, Beltsville, MD 20705.

2:00 20 Changes in gene expression associated with ovarian follicular development: A review. H. A. Garverick*, University of Missouri, Columbia.

2:30 21 Endocrinology of increased ovarian folliculogenesis in cattle selected for twin births. S. E. Echternkamp*.

3:00 BREAK

3:15 22 Influence of size of the dominant follicle, serum estradiol, and exogenous GnRH on luteal sensitivity to prostaglandin F2α in beef heifers. S. W. Williams*, M. Amstalden1, R. L. Stanko1,2, D. L. Vallejo1, and G. L. Williams1, 1Texas A&M University Agricultural Research Station, Beeville, 2Texas A&M University-Kingsville, Kingsville.

3:30 23 Early increases in estradiol in follicular fluid from cattle with low peripheral concentrations of progesterone. R. Taft*, B. Sayre, and E. K. Inskeep, West Virginia University, Morgantown WV.

4:00 25 Effect of estradiol benzoate (E2) and (or) prostaglandin F2α (PG) on corpus luteum function in beef heifers. D. F. Hentges*, F. N. Kojima, B. E. Salfen, J. F. Bader, T. J. Safranski, and M. F. Smith, University of Missouri-Columbia, MO.

4:30 27 Identification of the optimal dose of estradiol benzoate in combination with a progestin to program follicular turnover in cyclic cattle. V. L. Bogacz*, J. E. Huston, D. E. Grum, and M. L. Day, The Ohio State University, Columbus, OH.

- Evaluation of corn steep liquor as a rumen degradable protein source for starch and cellulose digestion by rumen microorganisms in vitro. C. C. Ribeiro-Filho* and A. Trenkle, Iowa State University, Ames.
- Evaluation of a modified condensed molasses solubles (CMS) as a nitrogen source for rumen microbes in vitro. C. C. Ribeiro-Filho* and A. Trenkle, Iowa State University, Ames.
- Comparative nutritional value of steam-flaked white corn and moisture-heat damaged cottonseed in diets for beef cattle. R. Barajas, A. Felix, and A. Estrada*, Universidad Autonoma de Sinaloa (Mexico).
- Effect of moisture-damaged cottonseed on total tract digestion characteristics of finishing diets for sheep. R. Barajas*, J. F. Obregon, A. Estrada, and S. Arechiga, Universidad Autonoma de Sinaloa (Mexico).
- Ruminal Fermentation and Microbial Protein Synthesis of Korean Cattle Fed Alcohol-Fermented Feedstuff. B. W. Kim*, C. G. Yan*, J. S. Shin*, and B. J. Hong*, Kangwon National University, Korea, Yeon-Byeon Agriculture University, China.
- The effects of feeding whole cottonseed on reproductive parameters in crossbred Nubian bucks. Quintece McCravy*, Sandra Solaiman, Hari Goyal, and Elaine Coleman, Tuskegee University.
- In vitro evaluation of sunflower heads with varying levels of nonstructural carbohydrate and degradable intake protein. J. W. Lehmkuhler, D. A. Schmidt, M. D. Howard*, and M. S. Kerley, University of Missouri, Columbia, MO.
- The effects of high levels of molassed sugar beet pulp or barley inclusion and floor type on performance and liver copper accumulation in early weaned lambs. T. F. Crosby*, P. J. Quinn, J. J. Callan, B. Flynn, and P. J. Malone, University College Dublin, Dublin, Ireland.

30 Evaluation of three forage management systems for spring-calving beef herds: summer. M. J. Hersom and J. R. Russell*, Iowa State University, Ames, IA.

31 Vitamin E concentration in lamb muscle as influenced by concentrate or pasture finishing. K. E. McClure*, K. E. Turner2, and W. P. Weiss1, 1The Ohio State University, Wooster, OH, 2USDA-ARS, Beaver, WV.

33 Effect of hybrid, maturity and processing on ruminal degradability of corn plants. J. G. Andrae*1, C. W. Hunt1, C. G. Doggett1, G. T. Pritchard1, W. Kezar2, and W. Mahanna2, 1University of Idaho, Moscow, 2Pioneer Hi-Bred, Johnston IA.

34 The effect of various levels of ammonia or a buffered propionic acid-based preservative on the fermentation and aerobic stability of corn silage. J. M. Robinson, L. Kung, Jr.*, N. K. Ranjit, and J. Y. Tavares, University of Delaware, Newark.

36 The performance of pregnant ewes offered basal diets of hay or grass silage supplemented with molasses sugar beet pulp or a commercially available concentrate. T. F. Crosby*, J. V. O'Doherty1, P. Nowakowski2, P. J. Quinn1, J. J. Callan1, B. Flynn1, and C. McGrane1, 1University College Dublin, Dublin, Ireland, 2Agricultural University of Wroclaw, Wroclaw, Poland.

PHYSIOLOGY AND ENDOCRINOLOGY 5

Synchronization, Insemination, and Placental Physiology - I

Chair: Dr. F. Stormshak, Oregon State University, Corvallis

Thursday, 8:00 a.m. - 11:00 a.m.
Room 206/207

Abs. No.

8:00 429 Development of a new estrous synchronization protocol (7-11 Synch) for beef cattle with short-term feeding of melengestrol acetate (MGA). F. N. Kojima*, J. F. Bader, B. E. Salfen, M. F. Smith, and D. J. Patterson, University of Missouri, Columbia, MO.

8:15 430 Addition of GnRH to a melengestrol acetate (MGA) prostaglandin F2α (PG) estrous synchronization treatment improves synchrony of estrus and maintains high fertility in postpartum suckled beef cows. D. J. Patterson*, F. N. Kojima, and M. F. Smith, University of Missouri, Columbia, MO.

8:30 431 Effect of royal jelly on estrus synchronization and pregnancy rate of ewes using fluorogestone acetate sponges. M. Q. Husein*1, R. T. Kridli1, and W. D. Humphrey2, 1University of Arkansas, State University, State University, AR/USA.

8:45 432 Evaluation of a two-part melengestrol acetate regime to synchronize estrus in beef cattle. Shelley Wright*, David Kreider1, Rick Rorie1, Natalie Huber1, and Gary Murphy, University of Arkansas, Dept of Animal Science.
9:00 433 Artificial insemination outcomes in beef females using bovine sperm with a detectable fertility-associated antigen. L. R. Sprott**, M. D. Harris*, D. W. Forrest*, H. M. Zhang*, J. N. Oyarzo*, M. E. Bellin*, and R. L. Ax*, 1Texas A&M University, College Station, TX, 2University of Arizona, Tucson, AZ.

9:15 BREAK

9:30 434 Artificial insemination outcomes in beef females using bovine sperm with a detectable fertility-associated antigen. L. R. Sprott**, M. D. Harris*, D. W. Forrest*, H. M. Zhang*, J. N. Oyarzo*, M. E. Bellin*, and R. L. Ax*, 1Texas A&M University, College Station, TX, 2University of Arizona, Tucson, AZ.

10:00 436 Effects of pre-synchronization and bST treatment on pregnancy rates to a timed artificial insemination protocol in lactating dairy cows. F. Moreira*, C. Orlandi, C. A. Risco, R. Mattos, F. L. Lopes, and W. W. Thatcher, 1Department of Dairy and Poultry Sciences, University of Florida, 2College of Veterinary Medicine, University of Florida.

10:15 437 Use of asynchronous embryo transfer to investigate the role of uterine-embryo timing on placental size. M. E. Wilson*, K. A. Vonnahme, and S. P. Ford, Iowa State University, Ames IA.

10:30 Round Robin Discussion

**PRODUCTION AND MANAGEMENT 2**

**Beef Cattle: Feedlot**

Chair: Dr. P. A. Momont, University of Idaho, Caldwell

Thursday, 8:15 a.m. - 11:00 a.m.

Room 201/202

# ASAS BUSINESS MEETING

**Chair:** Dr. T. Klopfenstein,  
University of Nebraska, Lincoln

**Thursday, 11:00 a.m. - 12:00 noon**  
Room 138/139
WOMEN AND MINORITIES
COMMITTEE SYMPOSIUM/LUNCHEON
Mentoring – Minority and Women – Do We Need It?
Co-Chairs: Dr. N. A. Irlbeck, Colorado State University, Fort Collins and Dr. A. C. Murry, Jr., University of Georgia, Athens

Thursday, 12:00 Noon - 3:05 p.m.
12:00-1:00 p.m. Lunch Deli Buffet
Westin Hotel, House

Time
12:35 Welcome Nancy A. Irlbeck, Colorado State University, Fort Collins and A. C. Murry, Jr., University of Georgia, Athens.
12:45 Role of Minorities and Women in Animal Science in the 21st Century. T. J. Klopfenstein, University of Nebraska, Lincoln.
1:15 How We Got Here From There. A. L. Siemens, Oscar Mayer Foods Division, New Glarus, WI.
1:45 Mentoring-Minorities and Women in Animal Science- Do We Need It? B. P. Glenn, Federation of Animal Science Societies, Bethesda, MD.
2:15 Discussion
3:00 Closing: Nancy A. Irlbeck, Colorado State University, Fort Collins and A. C. Murry, Jr., University of Georgia, Athens.

EXTENSION
Extension Specialist’s Luncheon
Chair: Dr. T. G. Hartsock,
University of Maryland, College Park

Thursday, 12:00 Noon
Westin Hotel, Council

EXTENSION 2
SYMPOSIUM
The Changing Roles of Extension Specialists
Chair: Dr. T. G. Hartsock, University of Maryland, College Park
Thursday, 1:30 p.m. - 4:45 p.m.
Room 138/139

Time
1:30 Formalizing the Working Relationship between Extension Specialists and Commodity Organizations: the National Pork Producers Council Model; Earl Dotson, National Pork Producers Council.
2:00 Interactions of Extension Specialists with Representatives of Agribusiness and Private Consultants; William Weldon, Elanco Animal Health and Mike Veenhuizen, Livestock Engineering Solutions.
2:30 Extension Specialist’s Roles in Training and Utilizing Volunteers in Animal Science Extension Programs Adult Programs: Roger McCraw, North Carolina State University 4-H/Youth Programs: Matt Claeys, Purdue University.
3:30 BREAK
3:45 The Emerging Technology of Electronic Media and Its Impact on the Role of Extension Specialists; Craig Wood, University of Kentucky.
4:15 The Evolving Role of Animal Science Extension Specialists: An Administrative Perspective; Roger Crickenberger, North Carolina.
**BEEF COMMITTEE SYMPOSIUM**

Sponsored by: Select Sires Inc.

**Heifer Programs That Add Value to the Beef Industry**

Chair: Dr. J. E. Williams, University of Missouri, Columbia

Thursday, 1:30 p.m. - 4:30 p.m.
Room 205

Estimation of variance components for teat number in swine using REML and Gibbs sampler. C. Lee* and C. D. Wang, Hallym University, Chuncheon, Korea.

Effects of recipient breed on birth and weaning weight and wool follicle numbers of Merino lambs born by embryo transfer. T. Wuliji*, K. G. Dodd, R. N. Andrews, J. Aspinal, and T. Harison, 1E (Kika) de la Garza Institute For Goat Research, Langston University, Langston, OK 73050, 2AgResearch, Private Bag 50034, Mosgiel, New Zealand.

Live weight, reproductive performance, and wool characteristics in mixed age Romney ewes selected for a single trait of fleece weight. T. Wuliji, K. G. Dodds, R. N. Andrews, P. R. Turner, and R. Wheeler, 1E (Kika) de la Garza Institute For Goat Research, Langston University, Langston, OK 73050, 2AgResearch, Private Bag 50034, Mosgiel, New Zealand.

Estimation of litter environmental and maternal effects for performance test traits of Large White swine. Z. B. Johnson*, J. J. Chewning, and R. A. Nugent, 1University of Arkansas, Fayetteville, 2The Pork Group, Rogers, AR.

Comparison of performance of pigs from three breed terminal and rotational crossbreeding systems: Growth and survival rates. K. Nadarajah, D. L. Kuhlers, S. B. Jungst, M. R. Duffe, and J. A. Little, Auburn University, Auburn, AL.

Milk production of crossbred daughters of high and low milk EPD Angus and Hereford bulls. J. A. Minick*, D. S. Buchanan, and S. D. Rupert, Oklahoma Agricultural Experiment Station, Stillwater.

Evaluation of carcass traits of Duroc pigs from a line selected on an index of ultrasound backfat thickness and predicted feed conversion. D. L. Kuhlers*, K. Nadarajah, S. B. Jungst, B. L. Anderson, and B. E. Gamble, Auburn University, AL.

Use of milk EPDs to predict differences in milk production of range beef cows. S. D. Rupert*, D. S. Buchanan, and J. A. Minick, Oklahola Agricultural Experiment Station, Stillwater, OK.

Genetic polymorphism of milk protein in Chinese black and white dairy cattle. J. Luo*, H. Qiu, S. H. Wang, and J. W. Li, School of Animal Science and Veterinary Medicine, Northwestern Agricultural University, China.

Development of a heterogeneous mixed linear model with maternal genetic effects for multiple trait case. E.-C. Lin* and P. J. Berger, 1Pig Research Institute Taiwan, Chunan, Miaoli, Taiwan, R.O.C., 2Iowa State University, Ames, Iowa.

Comparison of the reliability of genetic evaluations from an organized progeny test and a field level performance recording program. Nicolas Caron* and Robert A. Kemp, Lethbridge Research Centre.

Mixed model estimates of genetic effects for beef cattle birth and weaning traits. D. E. Franke*, Louisiana State University Agricultural Center.

Verification of a quantitative trait locus for dairy form in two families of Holsteins. T. S. Sonstegard*, C. P. Van Tassell, M. S. Ashwell, W. M. Garrett, and S. M. Kappes, 1ARS-USDA Beltsville Agricultural Research Center, Beltsville, MD, 2ARS-USDA Meat Animal Research Center, Clay Center, NE.

Repeatability estimates of objective measurements on the rear legs of dairy cows. P. O. Boisot*, S. Rodriguez-Zas, and R. D. Shanks, University of Illinois, Urbana-Champaign, IL.
BREEDING AND GENETICS 5

Parameter Estimation
Chair: Dr. M. D. MacNeil, USDA, ARS, Miles City, MT
Thursday 1:00 p.m. - 2:45 p.m.
Room 147/148

Abs. Time No.

1:00 95 Maternal and direct genetic relationships between weaning weight and traits derived from the Brody growth curve in Angus cattle. M. Kaps*, W. O. Herrin, and W. R. Lamberson, University of Missouri-Columbia, Columbia, MO.

1:15 96 Genetic parameter estimation of growth and lactation curve components in Polled Hereford cattle. J. B. Glaze, Jr.*1 and R. R. Schalles2, 1University of Vermont Extension, White River Junction, VT, 2Kansas State University, Manhattan, KS.

1:30 97 Estimation of genetic parameters for mature weight in Hereford cattle. J. M. Rumph*1, R. M. Koch1, K. E. Gregory2, L. V. Cundiff2, and L. D. Van Vleck3, 1University of Nebraska, Lincoln, 2,3USDA-ARS, USMARC, 2Clay Center, 3Lincoln, NE.

2:00 99 Genetic and environmental weaning weight parameter estimates across and within Hereford populations in three countries. J. K. Bertrand*, D. de Mattos, and I. Misztal, University of Georgia, Athens.

2:15 100 Heritabilities and genetic correlations for male scrotal circumference and female reproductive and growth traits, in Canchim cattle. M. M. Alencar*1, A. M. Silva2, A. R. Freitas1, R. T. Barbosa1, and L. A. Correa1, 1EMBRAPA-Centro de Pesquisa de Pesquisa de Pecuária do Sudeste/Sao Carlos, SP/Brazil, 2Graduate student/UNESP, Jaboticabal, SP/Brazil (Bolsista da FAPESP).

2:30 101 Interactions between genotype, environment and disease affect breeding against susceptibility for a production disease. K. H. de Greef* and L. L. G. Janss, ID-DLO Lelystad NL.

ENVIRONMENT & BEHAVIOR 3

Behavioral and Environmental Issues for Swine
Chair: Dr. H. Kattesh, University of Tennessee, Knoxville
Thursday, 2:00 p.m. - 3:30 p.m.
Room 110

Abs. Time No.

2:00 138 Segregated early weaning affects behavior and adrenal responses in pigs. Y. Yuan*, D. Charles, M. Tauchi, and A. J. Zanella, Michigan State University, East Lasing, MI.

2:30 140 Behavior and environmental impact of outdoor gestating sows: effect of cold weather and grass burning. H. A. Rachuonyo*1, J. L. Morrow-Tesch2, J. G. Gentry1, D. L. Anderson1, S. C. Wilson1, J. W. Dailey2, H. T. Bird1, and J. J. McGlone1, 1Texas Tech University, 2USDA-ARS, Lubbock, TX.
Behavior and performance of lactating Newsham sows and piglets reared indoors or outdoors. A. K. Johnson*1, J. L. Morrow-Tesch2, S. C. Wilson1, H. Rachuonyo1, J. G. Gentry1, and J. J. McGlone1, 1Pork Industry Institute, Texas Tech University, Lubbock, 2USDA-ARS, Lubbock, TX.

Dust and microbe levels from indoor and outdoor pig units. J. L. Morrow-Tesch*1, F. M. Mitloehner2, J. W. Dailey1, S. C. Wilson2, and J. J. McGlone2, 1USDA-ARS, Lubbock, TX, 2Texas Tech University, Lubbock, TX.

Pork quality of hogs finished on slats and deep-bedding. J. G. Gentry*, M. F. Miller, and J. J. McGlone, Texas Tech University, Lubbock, TX.

GROWTH AND DEVELOPMENT 4 SYMPOSIUM

Environmental Effects on Animal Growth

Co-Chairs: Dr. K. L. Houseknecht, Pfizer, Inc., Groton, CT and Dr. W. D. Hohenboken, Virginia Polytechnic Institute and State University, Blacksburg

Thursday, 1:00 p.m. - 5:00 p.m.
Room 208/209

Time

1:00 Modeling animal growth: Genetic x environment effects. A. P. Schinckel, Purdue University, West Lafayette, IN
1:35 Understanding the ups and downs of immunobiology in food animal production. M. E. Spurlock, Purina Mills Inc., St. Louis, MO.
2:10 Immunosensation of environmental pathogens and the genes activated to reduce food intake. R. W. Johnson, University of Illinois, Urbana.
2:45 BREAK
3:00 A genotype x environment interaction caused by the genotype of penmates: Impact of competitive behavior on growth. W. M. Muir, Purdue University, West Lafayette, IN.
3:35 Heat stress and animal growth. J. A. Nienaber, USDA, ARS, Clay Center, NE
4:10 The impact of rearing environment and disease exposure on pigs with differing genetic potential for lean growth. B. T. Richert, Purdue University, West Lafayette, IN.
4:45 General discussion

MEAT SCIENCE AND MUSCLE BIOLOGY 5

Beef Quality

Chair: Dr. S. M. Lonergan, Iowa State University, Ames

Thursday, 1:00 p.m. - 4:30 p.m.
Room 143/144

Abs.

Time No.
1:00 222 Effect of supplemental dietary vitamin E on the color and case-life of top loin steaks and ground chuck patties in map case-ready retail packaging systems. R. L. Stubbs1, P. K. Bates*1, J. B. Morgan1, H. G. Dolezal1, F. K. Ray1, and S. E. Williams2, 1Oklahoma State University, 2Roche Vitamins Inc.
Comparison of vitamin E and natural antioxidants on the lean color and retail case-life of ground beef. A. E. Down, K. C. Childs*, D. N. Vargas, D. S. Webb, J. B. Morgan, and H. G. Dolezal, Oklahoma State University, Stillwater, OK.

Effects of including AGRADO™ in finishing diets for beef cattle on retail case-life of ground beef and top loin steaks. C. E. Walenciak*, B. A. Gardner, H. G. Dolezal, and F. N. Owens, Oklahoma State University, Stillwater.

Effects of vascular infusion of cattle after exsanguination with saccharides, sodium chloride, and phosphates, and either vitamin C, E or C+E on carcass traits and meat palatability. M. E. Dikeman*1, T. E. Dobbels1, E. J. Yancey1, E. Katsanidis2, and P. B. Addis2, 1Kansas State University, Manhattan, 2University of Minnesota, St. Paul.

Effects of vascular infusion of cattle after exsanguination with saccharides, sodium chloride, and phosphates, plus vitamin C, E, or C+E on meat display color stability. E. J. Yancey*, M. C. Hunt1, M. E. Dikeman1, T. E. Dobbels1, and P. B. Addis2, 1Kansas State University, Manhattan, 2University of Minnesota, St. Paul.

Effect of supplementing feedlot steers with vitamin D3 and E on carcass traits, shelf-life attributes and longissimus muscle tenderness. D. N. Vargas*, A. E. Down, D. S. Webb, H. Han, J. B. Morgan, and H. G. Dolezal, Oklahoma State University, Stillwater, OK USA.

Effects of feeding Vitamin D3 on carcass characteristics of beef cattle. K. Karges*, J. B. Morgan, F. N. Owens, and D. R. Gill, Oklahoma State University, Stillwater, OK.

Effects of dietary modifications using vitamin D3 on calcium content and vitamin D residues in tissue and liver. J. L. Montgomery*, R. L. Horst2, D. A. Hoy2, M. A. Carr1, G. G. Hilton1, B. D. Price1, and M. F. Miller1, 1Texas Tech University, 2National Animal Disease Center USDA/ARS.

Type of container and quantity of explosive in the Hydrodyne process on beef strip loin tenderness. M. B. Solomon* and J. S. Eastridge, USDA, ARS, MSRL, Beltsville, MD.

NONRUMINANT NUTRITION 7
POSTERS

Grow-finish Nutrition

Thursday, 8:00 a.m. - 5:00 p.m.
Authors present 1:00 p.m. - 3:00 p.m.
Exhibit Hall E
Effects of α-Galactosidase enzyme on ileal digestibility and large intestine fermentation in finishing pigs fed a cereal-soybean-pea diet. F. Baucells*, J. Morales², J. F. Pérez², and J. Gasà², ¹Pinsos Baucells, S.A., ²Universitat Autònoma de Barcelona.

Molasses/fat combination as a nutrient source for swine and ducks. S. L. Selin, M. E. Einstein, O. Adeola, and B. G. Harmon, Purdue University, West Lafayette, IN.

A nutrient database for distiller’s dried grains with solubles produced from new ethanol plants in Minnesota and South Dakota. M. H. Whitney*, M. J. Spiehs, and G. C. Shurson, University of Minnesota, St. Paul, MN.

Energy, nitrogen, and phosphorus digestibility of growing and finishing swine diets containing distiller’s dried grains with solubles. M. J. Spiehs*, G. C. Shurson, and M. H. Whitney, University of Minnesota, St. Paul, MN.

Effects of two sources of dietary L-carnitine on nitrogen and energy balance in growing pigs. J. W. Frank*, B. T. Richert¹, S. A. DeCamp¹, C. Thomas¹, and K. Q. Owen², ¹Purdue University, West Lafayette, IN, ²Lonzla, Inc., Fair Lawn, NJ.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

Effects of dietary thiamin, folacin, or niacin regimen on growth in high lean pigs. T. R. Lutz*, T. S. Stahly, D. R. Cook, and R. C. Ewan, Iowa State University, Ames, IA.

Effects of adding wheat midds to low crude protein, amino acid supplemented diets for finishing pigs. J. A. Shriver*, S. D. Carter, B. W. Senne, and L. A. Pettey, Oklahoma State University, Stillwater, OK.

Effect of wheat quality and quantity in the diet on the growth performance of finisher pigs. P. B. Lynch¹ and P. G. Lawlor¹, ¹Teagasc, Moorepark Research Centre, Fermoy, Co. Cork, Ireland.

CONTEMPORARY ISSUES 3 SYMPOSIUM

FAIR 2002: An Update on Research Priorities
Chair: Dr. D. S. Buchanan, Oklahoma State University, Stillwater

Friday, 9:00 a.m. - 11:00 a.m.
Room 138/139

Time

9:00 Introduction. David Buchanan, Oklahoma State University, Stillwater.
9:05 The FAIR 2002 Program and Building a Consensus. James Males, Oregon State University, Corvallis.
9:35 Changes from FAIR 95 to FAIR 2002 and the Perspective of Land Grant University Administrations. E. D. Aberle, University of Wisconsin, Madison.
10:35 Question & Answer

FASS ANIMAL CARE AND USE COMMITTEE SYMPOSIUM

Sponsored by: ASAS, FASS and the Animal Industry Foundation

Navigating Animal Care and Use with the Ag Guide

Friday, 8:00 a.m. - 11:00 a.m.
Room 143/144

Moderator: Dr. J. J. McGlone, Texas Tech University, Lubbock

Time

8:00 Institutional and Individual responsibilities to animals and animal workers. Steve Ford (Dr. Ford is an IACUC chair)
8:30 IACUC components, function and training. Joy Mench. (Dr. Mench is Chair of Ag Guide Writing committee.)
9:00 Occupational Health and Safety - zoonoses, allergies and other human health concerns. Ralph Dell (Dr. Dell is an MD, Director of the National Academy of Sciences Institute of Laboratory Animal Resources, and an expert on Occupational Health and Safety for animal users.)
9:30 Break-out sessions with IACUC chairs as group leaders. Sample animal protocols provided for discussion with the Ag Guide as a resource document. A group of IACUC members and chairs will be identified to serve as group leaders
10:15 Reports of break-out groups and panel discussion of findings

99 641 Effect of ruminally protected choline on productivity of Angora goats. T. Shenkoru*, F. N. Owens, R. Puchala, and T. Sahlu, ¹E (Kika) de la Garza Institute for Goat Research, Langston University, Langston, OK, ²Animal Science Department, Oklahoma State University, Stillwater, OK.

100 642 Effects of methylpalmoxirate in mature sheep. W. Pittroff*, M. Friedman, S. Das, and H. D. Blackburn, ¹U.S. Sheep Experiment Station, Dubois, ²Monell Chemical Senses Center, Philadelphia, ³Idaho State University, Dept. of Pharmaceutical Sciences, Pocatello.

102 644 Effect of a dietary supplement of folic acid on net flux of urea N, ammonia N and α-amino N across the ruminal wall of lactating dairy cows. C. Benchaar*, A. Desrochers, J. J. Matte, and C. L. Girard, ¹Agriculture and Agri-Food Canada, Dairy and Swine R&D Centre, Lennoxville, ²FMV, Universite de Montreal, St-Hyacinthe.

103 645 Effect of Agrado™ on the Health and Performance of Transport-Stressed Heifer Calves. T. C. Stovall*, H. Han, and D. R. Gill, Oklahoma State University, Stillwater, OK.

104 646 Impact of Agrado™ on Tocopherol Metabolism by Transport-Stressed Heifers. H. Han*, T. C. Stovall, and D. R. Gill.

107 649 Effects of source and level of ruminally protected choline on performance and carcass characteristics of finishing beef steers. G. A. Nunnery*, M. L. Galyean, S. C. Harris, G. B. Salyer, and P. J. Defoor, Texas Tech University, Lubbock, TX.
TEACHING 4
PROC MIXED WORKSHOP

PLEASE NOTE: A MAXIMUM OF 40 INDIVIDUALS: There is a fee for this workshop. Sign up on the registration form (Page 32A).

Co-Chairs: Dr. D. Banks, Michigan State University, East Lansing, Dr. R. Tempelman, Michigan State University, East Lansing, and Dr. L. Douglass, University of Maryland

Friday, 8:00 a.m. - 12:00 Noon
Room 151/152 - Cyber Café

One of the missions of North Central Regional Project 47 is the development and implementation of statistical training workshops at professional meetings held within the numerous disciplines of the Agricultural Experiment Stations across the US. Dr. Rob Tempelman of Michigan State University has been charged with the leadership for ASAS and ADSA.

Currently, members of this NC committee are conducting workshops at several summer meetings of various professional societies.

This workshop will focus on the use of Proc Mixed from SAS. The workshop is directed at researchers in nutrition, physiology and others that have a use for repeated measure analysis.
